GPS Users - PLEASE NOTE:

GPS systems try to bring people in from Pikeville via Valley View Road. If you have never traveled Valley View Road, while it is technically the shortest route, it's 10 miles of narrow gravel road with numerous potholes and a white-knuckle climb up a twisty hill with no guardrails. It will then try to send you down Hell's Hollow road, which is basically a footpath with no place to turn around. So the bottom line is..... **"don't trust your GPS routing - follow the TCPC directions"**
